

NAVMASTER AFTERSALES

Both in terms of legislation and operation ECDIS is becoming a vital part of vessels' navigation equipment.

At Lilley and Gillie we believe there is more to electronic navigation than putting the right hardware on board. That's why we have a range of options designed to make sure your investment in ECDIS is not wasted.

From training to after care we have a range of solutions to fit your requirements.

Navmaster Computer Based Training

The need for ECDIS training has been clearly set out by STCW and the ISM code.

Using Navmaster Computer based Training that need can be met effectively ashore or on board ship.

Key benefits:

- Effective, repeatable training
- Flexibility to move officers between ships
- Certificates can be company branded and comply with company SMS

THE TOTAL ECDIS SOLUTION

Navmaster Annual Support Contract

Securing extended support and continuous updates, the Navmaster Support Contract ensures that you will continue to get the most out of your ECDIS.

Key benefits:

- Keep Navmaster up to the latest standard with software upgrades
- Support your crews with any questions answered by our staff
- Remote diagnostic of problems

INTELLIGENT NAVIGATION SOLUTIONS

Navmaster Onboard Spares

With our exclusive on board spares option you can be sure that the vessel always has a working ECDIS.

Key benefits:

- Never worry about ECDIS failure
- Sail paperless with confidence
- Modular for simple installation
- More cost effective than engineers visits

In accordance with our policy of continuous development, changes may be made from time to time without prior notice.
